

## HOW KYOZOU PRICING WORKS

### **Our pricing plans include:**

- No contract
- Access to all features
- No hidden fees
- One month free

Pricing is calculated by taking into account your number of average monthly listings or your average monthly sales.

KyoZou will consult with you as to which of our pricing plans is the best for you: Pay Per Listing or Pay By Sales Volume. You will pay the monthly fee until you reach a threshold within the bracket you are assigned. These thresholds will be reviewed with you so that you are aware when an increase in fees will occur. An increase in fees isn't a bad thing, it means you've grown your sales substantially through multi-channel automation. We do not do contract so at any point you can contact our sales or billing department and determine if you're on the best plan or if you've outgrown your plan and need to get on a new pricing structure.

There is a one time onboarding fee required as you sign up into KyoZou. Your dedicated Customer Success Manager will work with you to train you and your staff on how to use KyoZou. They will be accessible every step of the way during your onboarding process and once you are off and running with the system. Your Customer Success Manager will stay in touch with you to provide tips and strategies to grow your online sales.

Book a demo now and we'll review your online store, offer tips and suggestions and calculate which pricing plan you will be eligible for.

Find out how easy KyoZou can make your online selling process, so you can sell more. Sell smarter.
